HENRY IRVING IS DEAD

NOTED ENGLISH ACTOR EXPIRES
SUDDENLY OF SYNCOPE AT
BRADFORD, ENG.

APPEARED IN GOOD HEALTH

DEATH OF FAMOUS THESPIAN IS
A LOSS TO THE ENGLISH
SPEAKING WORLD.

London, Oct. 14.—The English-speaking world has suffered an irreparable loss by the sudden death Friday night of Sir Henry Irving, who was universally regarded as the most representative English actor of contemporary times.

Sir Henry died literally in harness. He was giving a series of farewell performances in the English provinces and this week was playing an engagement at Bradford, appearing in several favorite roles. Thursday he presented "King Rene's Daughter" and "The Bells," and seemed to be in excellent health, taking the exhausting part of Matthias in the latter play, with all the vigor of youth. Friday night before an enthusiastic audience he portrayed one of his most characteristically intellectual parts, the title role in his own stage adaptation of Lord Tennyson's "Becket," with marked success.

After the performance Sir Henry returned to his hotel, reaching his rooms at 11:30 o'clock, when it was observed that he was in great pain. Physicians were immediately summoned, but before they could arrive Sir Henry was seized with an attack of syncope and expired within a few minutes, without having uttered a word, in the presence of Bram Stoker, who had been his immediate manager for many years, and a few other intimate friends. The event caused the greatest pain and consternation among the members of the company.

To the last moment of his life Sir Henry Irving's heart was in the work to which he had devoted his career—the raising of the standard of his art. On Wednesday he was entertained at luncheon in the Bradford town hall at which the mayor presented him an address from his admirers.

In replying to the address, Sir Henry spoke of himself as one, the sands of whose life were fast running out, but no one then present had the slightest idea that the end would come so soon. He proceeded in his reply to eloquently advocate the establishment of theaters by municipalities, "because," he said, "I believe that by this means the standard of the true drama as distinguished from miscellaneous entertainments would be successfully upheld."

Sir Henry's last appearances in London were made last summer, following his serious illness when the enthusiasm at the nightly receptions accorded him in the historic Drury Lane theater will long be remembered. Since then he has been engaged in touring the provinces and contemplated another visit to the United States.

SIX MINERS ENTOMBED.

They Probably Have Perished in a Philadelphia Mine.

Fredericktown, Pa., Oct. 14.—Half a mile back from the entry six miners are imprisoned—perhaps dead—in the mine of the Clyde Coal company. The mine is on fire and the belief is general that the entombed men cannot be reached in time to save their lives even if they are not already dead. Two others were seriously burned in an explosion in the fanhouse following the breaking out of the fire in the mine, one of them so fearfully that he will die. The imprisoned men are: George Kelly, Homer Harvey, Richard Marsh, Richard Moffey, Bonsi Lorenzo and Cesto Benardini.

The burned men are: L. D. Wood and Robert Virgin, the latter fatally. Nearly 200 men were in the mine when the fire started. Its exact origin is not known but it is supposed that it was caused by a wire becoming short circuited and igniting the brattice cloths which serve to create drafts by means of which the mine is kept free from foul air. All but the six men named escaped. As soon as it was discovered that some of the men had been left behind two rescue parties began efforts to reach them, but up to midnight without result.

Late at night the attempts to effect a rescue were abandoned as hopeless. The burning coal has baffled the men in every effort to reach the imprisoned miners, who are now almost certainly dead.

Ferjervary Reappointed.

Vienna, Oct. 14.—It is understood that General Baron Ferjervary has been reappointed Hungarian premier, but no public announcement will be made until next week. The report cannot be confirmed.

CHARGED WITH CONSPIRACY.

Former City Officials of Philadelphia Arrested.

Philadelphia, Oct. 14.—Charged with conspiracy to defraud the city, Abraham L. English, former director of public safety, and John W. Henderson and Henry E. Baten, members of a contracting firm; Phillip H. Johnson, an architect, and James D. Finley, formerly a building inspector, were arraigned for a hearing Friday before Magistrate Eisenbrown. The prosecution was instigated by Mayor Weaver and is the result of an investigation made by W. Bloddy Powell, city architect, into the construction of one of the buildings of the new city hospital for contagious diseases. The contract for the building was awarded to Henderson & Co. on March 6, 1903, the price being \$142,700.

Samuel H. Ashbridge was at that time mayor of the city. Mr. Ashbridge and Architect Powell were the most important witnesses called at Friday's hearing, which was continued until Saturday.

Former Judge Gordon, special counsel for Mayor Weaver, offered in evidence the proposals submitted by Henderson & Co. The items included one for the entire work without tiling at a cost of \$135,000; one for the work with tiling at \$142,000, and a third without tiling and with maple instead of marble flooring at \$125,000. It was shown that the work was not done according to contract, cheaper material being used to an enormous extent.

JEROME IS TURNED DOWN.

Republicans Refuse to Renominate the District Attorney.

New York, Oct. 14.—The Republican conventions to select candidates for the various offices in the borough of Manhattan and New York county were held Friday night. Before the conventions met the executive committee of the county committee discussed for two hours the question whether or not the county convention would endorse District Attorney Jerome. Although there is no official relation between the borough and county conventions they are substantially the same, and until the leaders who make up the executive committee could settle the Jerome question both conventions were blocked.

The executive committee turned down Mr. Jerome by a vote of 27 to 8, although his nomination was urged by W. M. Ivins, candidate for mayor. The convention itself gave C. A. Flammett 237 votes to 9 for Mr. Jerome for district attorney.

Mr. Jerome said when told of the result of the convention:

"It has not happened in my memory that a man has been so honored or received such an endorsement as has been practically unanimous in the opposition of the district leaders of all political parties in this city."

FIRE IN THE EXPOSITION.

Missouri Building at Portland Completely Destroyed.

Portland, Ore., Oct. 14.—The Missouri state building at the Lewis and Clark exposition was completely destroyed by fire Friday night. Practically nothing of the magnificent exhibit gathered by the Missouri state commission was saved, and the beautiful collection of art and statuary which was one of the features of the Missouri display will prove almost a complete loss. It is estimated that the pecuniary loss will exceed \$50,000, with no insurance save \$5,000 on the art exhibit. The secret service agents are working on the theory that the fire was of incendiary origin.

The only casualty was the serious injury to an electrician named Harry H. Jones, who mounted the roof to cut the electric wires and who fell to the main floor of the building.

SEVERAL NEGROES DROWNED

Steamer Elk Strikes a Snag and Sinks at Vicksburg.

Vicksburg, Miss., Oct. 14.—Heavily loaded with freight and with a crew of twenty-five men, the steamer Elk, while backing out from the city landing, struck a snag and sank in twenty-five feet of water. From five to ten negro roustabouts were drowned, but the exact number will not be known for several days. The loss on the boat and cargo is estimated at \$25,000, partly insured.

Case of Johann Hock.

Springfield, Ill., Oct. 14.—The state filed its brief Friday in the Johann Hock murder case, and it will be submitted to the supreme court by oral arguments and briefs next Monday. No decision will be rendered by the court before the December term.

TWELVE FIREMEN HURT.

Roof and Floor of a Burning Building Collapse.

Chicago, Oct. 14.—Twelve persons were injured, two probably fatally; a score of horses were burned to death and property valued at \$65,000 was destroyed in a fire that demolished the La Salle Avenue livery barns Friday night. While the fire was at its height the roof and third floor collapsed and twelve firemen who were in the building were caught in the debris.

FRANCE THREATENING

MAY RESORT TO FORCE TO BRING

PRESIDENT CASTRO OF VEN-

UELA TO TERMS.

WILL MAKE NO OBJECTIONS

UNITED STATES GOVERNMENT

APPROVES OF CONTEMPLATED
ACTION OF FRANCE.

Washington, Oct. 14.—American grievances against Venezuela may be settled by diplomacy, while France in the absence of any diplomatic relations at Caracas, may yet be compelled to resort to a show of force. Despite the assurances of foreign office officials at Paris, it is stated here that the French ultimatum has been practically ready to dispatch for a week or more and that France has the full assent of the Washington government to adopt an effective course of action against Venezuela to obtain the renewal of diplomatic relations and the restoration of French property seized by the Caracas government.

This, briefly, is the situation at present. The French ultimatum will be held up until further conferences have been held between the French embassy here and the state department.

So far as Judge Calhoun, the American special commissioner, has reported to the department, there is nothing in the situation at Caracas that cannot be settled by patient and firm diplomacy. American and French property, it is contended, has been seized unjustly by President Castro, but ample precedent is found in history for the settlement without resort to force of problems far more complicated than the present issue.

While not prepared to announce definitely its exact course of action, the Washington government has let France know informally its belief that American grievances against Venezuela, although severe, can be settled without the assistance of American warships. This information was not communicated with any intention of forestalling a resort by France to force, but was in answer to the earnest inquiry of the Paris government.

Public patience in France is rapidly becoming exhausted over the delay of the government in proceeding against Venezuela and this fact necessarily acts as a spur in the conferences between Paris and Washington. This government will give France every possible assistance toward a diplomatic adjustment. A thorough understanding exists between Paris and Washington on this subject and even if France shall find it necessary to establish a pacific blockade against Venezuela the Washington government will offer no objection, having already assured itself that the Monroe doctrine is not involved in any way.

In diplomatic circles the opinion is expressed that the Venezuelan president would yield before a pacific blockade is established.

CLERK MORTALLY WOUNDED.

North Dakota Man Shoots a St. Paul Citizen.

St. Paul, Oct. 14.—Benjamin A. Fink, 452 Rondo street, clerk in the store of Morris Samelson, 192 East Seventh street, was shot at 4:30 o'clock Friday afternoon by James Newman, who arrived in the city Thursday morning from Michigan City, N. D. Mr. Fink is in a serious condition at the city hospital. The shooting took place soon after Newman had bought a revolver and cartridges in the store.

Mr. Fink and his wife and Mr. and Mrs. Samelson were in the store when the stranger entered to buy a revolver. Newman bought a 32-caliber revolver for \$4, and Mr. Fink also sold him some cartridges. After making the purchase the stranger walked out of the store apparently satisfied.

Newman returned fifteen minutes later, saying: "I am going to shoot!" and instantly fired a shot, which did not hit anybody. Mr. Fink ran toward the rear of the store, but before he could get to a place of safety a second shot was fired. The bullet struck Fink below the right shoulder blade. The wounded man fell on the floor and Newman walked out of the store.

Newman was arrested. He was evidently joshed in a saloon into the belief that Fink had cheated him on the revolver sale and did the shooting in revenge.

ONE ARTILLERYMAN KILLED.

Six Others Badly Injured at Fort Riley Kan.

Junction City, Kan., Oct. 14.—Private Albert Last of the Twenty-ninth battery of field artillery was killed during target practice at Fort Riley Friday. Privates John Connelly and G. J. Simpson of the same battery are thought to be fatally injured and Privates Leary, Norman, Lancaster and Cline of the same organization are in the hospital with broken limbs and internal injuries. A large number of other artillerymen were badly hurt.

The Twenty-ninth battery is one of the six making up the First provisional regiment of field artillery at target practice. The battery's guns had been placed and its eight limbers loaded with ammunition were at the rear with six horses hitched to each limber. The drivers had dismounted. When the battery was ready for firing a large red flag was run up on a staff as a signal to the range party at the targets to get out of range of the guns. The wind blew the flag into the faces of the horses and they stampeded at once. Some drivers succeeded in getting in to their saddles, others were dragged, but most of the drivers were left behind. The horses dashed over small cliff and went down in a frightful mass with their riders.

Two Men Killed.

St. Augustine, Fla., Oct. 14.—George and Edward Carter were killed and several others were injured at night at Moultrie after a dance, as a result of a feud between the Oostens and Carters. The feud began several weeks ago with a fist fight between members of the two families. Four of the Oostens have been arrested.

SOMETHING OF A SURPRISE.

Number of New Fever Cases at New Orleans Increases.

New Orleans, Oct. 14.—Following is the official yellow fever report up to 6 p. m. Friday:

New cases, 25; total to date, 3,286; deaths, 4; total, 423; new foci, 6; cases under treatment, 167; cases discharged, 2,696.

The jump to twenty-five cases was something of a surprise, but it has caused no uneasiness, because the experience of all past visitations of the fever is that toward the end there is always a periodical variation in the reports from day to day.

Surgeon Corpu, who went to Patterson to look into conditions there, returned Friday and reports that there is little hope of stamping out the fever there because of the lack of co-operation on the part of the people. He says that the true conditions there have never been made known.

The country reports follow: Lake Providence and vicinity, 3 new cases; Donaldsonville, 1 new case; Patterson, 4 new cases, 2 deaths; Amella and Bayou L'Ours, 7 new cases; Union plantation, 1 new case; Kenner, 4 new cases.

Fever in Mississippi.

Jackson, Miss., Oct. 14.—The official report of yellow fever follows: Natchez, 4 new cases, 4 new foci; Vicksburg, 4 new cases; Gulfport, 3 new cases; Roxie, 1 new case; Hamburg, 1 death; Port Gibson, 2 new cases; Rosetta, 1 new case.

Fever in Florida.

Pensacola, Fla., Oct. 14.—The summary of yellow fever cases Friday night follows: New cases, 29; total to date, 383; deaths, 5; total deaths, 58; cases under treatment, 186; cases discharged, 145.

HAMILTON IS ELECTED.

Illinois Man Chosen Head of Bankers' Association.

Washington, Oct. 14.—The thirty-first annual convention of the American Bankers' association ended Friday with the record of having been the largest attended and most successful from a business standpoint in the history of the association. The registration of arriving members continued until Friday, when the total of 3,400 was reached. The business of the session Friday was executed with dispatch. It included a brief discussion of the advantages of having some system of insurance extended to depositors in banks, preferably supervised by the government, an address in advocacy of ship subsidy by the government, and the election of officers, at which John L. Hamilton of Hoopeston, Ill., was made president.

Vice presidents for different states include:

Iowa, T. L. Einsteimer, Glenwood; Michigan, Daniel McCoy, Grand Rapids; Minnesota, O. H. Havell, St. Cloud; Montana, A. B. Clements, Butte; North Dakota, Mrs. L. A. Batchelor, Fingal; South Dakota, F. M. Broder, Deadwood; Wisconsin, G. W. Strohmeier, Milwaukee.

King Oscar to End Regency.

Stockholm, Oct. 14.—King Oscar will resume the reins of government during the day, putting an end to the regency of Crown Prince Gustave.

Let this Machine do Your Washing Free.

There are Motor Springs beneath the tub. These springs do nearly all the hard work when once you start them going. And this washing machine works as easy as a bicycle wheel does.

There are slats on the inside bottom of the tub. These slats act as paddles to swing the water in the same direction you revolve the tub. You throw the soiled clothes into the tub, first. Then you throw enough water over the clothes to float them.

Next you put the heavy wooden cover on top of the clothes to anchor them, and to press them down.

This cover has slats on its lower side to grip the clothes and hold them from turning around when the tub turns.

Now, we are all ready for quick and easy washing.

You grasp the upright handle on the side of the tub and with it, you revolve the tub one-third way round, till it strikes a motor spring.

This motor spring throws the tub back till it strikes the other motor spring, which in turn throws it back on the first motor spring.

The machine must have a little help from you, at every swing, but the motor spring, and the ball bearings, do practically all the hard work.

You can sit in a rocking chair and do all that the washer requires of you. A child can run it easily full of clothes.

When you revolve the tub the clothes don't move.

But the water moves like a mill race through the clothes.

The paddles on the tub bottom drive the soap water THROUGH and through the clothes at every swing of the tub. Back and forth, in and out of every fold, and through every mesh in the cloth, the hot soapy water runs like a torrent.

This is how it carries away all the dirt from the clothes, in from six to ten minutes by the clock.

It drives the dirt out through the meshes of the fabrics WITHOUT ANY RUBBING, without any WEAR and TEAR from the washboard.

It will wash the finest lace fabric without breaking a thread, or a button, and it will wash a heavy, dirty carpet with equal ease and rapidity.

Fifteen to twenty garments, or five large sheets, can be washed at one time with the "1900" Washer.

A child can do this in six to twelve minutes better than any other washer woman could do the same clothes in TWICE the time, with three times the wear and tear from the washboard.

This is what we SAY, now how do we prove it? We send you our "1900" Washer free of charge, on a full month's trial, and we even pay the freight out of our own pockets.

No cash, deposit is asked, no notes, no contract, no security.

You may use the washer four weeks at our expense. If you find it won't wash as many clothes in four hours as you can wash by hand in eight hours you send it back to the railway station—that's all.

But, if, from a month's actual use, you are convinced it saves you money, you keep it. We don't do the work better, and does it twice as easily as I could be done by hand, you keep the machine.

Then you mail us 50 cents a week till it is paid for.

Remember that 50 cents is part of what the machine saves you every week. You own it, on a washer woman's labor. We intend that the "1900" Washer shall pay for itself and thus cost you nothing.

You don't risk a cent from first to last, and you don't buy it until you have had a full month's trial.

Could we afford to pay freight on thousands of these machines every week, if it did not positively KNOW they would do all we claim for them? Can you afford to buy without a machine that will do your washing in HALF THE TIME, with half the wear and tear of the washboard, when you can have that machine for a month's free trial, and let it PAY FOR ITSELF? This offer may be withdrawn at any time if over-crowded our factory.

Write us TODAY, while the offer is still open, and while you think of it. The postage stamp is all you risk.

OREGON WOMAN KILLED.

Shot Down During a Fight With Greek Laborers.

Riddles, Ore., Oct. 12.—At Glenbrook crossing near here at night eighty Greek laborers fought with their foreman, named Peterstein, and in a shooting that followed Mrs. Peterstein was killed and one of the laborers was wounded. The crew of a freight train came to the foreman's assistance and held the Greeks in check until a special carrying Deputy Sheriff Bogard and fifty armed men could reach the scene from Roseburg. When Bogard arrived he sent word to the Greeks that they must surrender the men who shot Mrs. Peterstein or he would open fire on them. After some parleying and an exchange of shots that did no damage, the Greeks surrendered and were placed on board the special train and taken to Roseburg.

The Greeks are now quartered in a vacant warehouse, where they are now closely guarded by militia.

In Favor of High License.

La Crosse, Wis., Oct. 13.—The Presbyterian synod of Wisconsin went on record Thursday in favor of high license as the best solution of the saloon problem, after a vigorous speech by T. M. Hare, superintendent of the anti-saloon league.

PROFITS WERE LARGE

OPERATIONS OF CONSPIRATORS

COTTON LEAK SCANDAL

REVEALED.

HOLMES WAS WELL PAID

WASHINGTON OFFICIAL SAID TO HAVE SOLD IMPORTANT INFORMATION.

New York, Oct. 14.—The profits of the alleged conspirators in the operations based on the recent leak in the government cotton crop reports are placed at approximately \$200,000, according to an indictment presented in court Friday on the arraignment before United States Commissioner Ridgway of Frederick A. Peckham and Moses Haas. According to charges made in this indictment Edwin S. Holmes, Jr., associate statistician of the department of agriculture, received \$25,017.

The indictment, which was found by a grand jury in Washington on Oct. 3, is against Edward S. Holmes, Jr. as well as against Haas and Peckham, and charges all collectively with having conspired to defraud by procuring advance information from Holmes concerning the government's cotton crop report. It sets forth in full many copies of telegrams and also of checks which passed between the accused, tending to show that a conspiracy existed.

One of the checks, dated Dec. 12, 1904, drawn on the Second National Bank of Hoboken and signed by Lewis C. Van Riper, calls for the payment of \$24,250 to M. Haas, of which sum it is alleged Haas paid Holmes \$14,250 in cash. Many other minor checks for sums ranging from \$100 to \$500 are set forth in the indictment, in addition to another check signed by Van Riper and payable to Haas on the same bank for \$38,292, dated Dec. 31, 1904. Of this sum it is claimed Holmes got \$10,767.

Counsel for the defense Friday moved for the discharge of the prisoners on the ground that the charges as alleged did not constitute an offense against the government. The hearing on the motion was adjourned until Oct. 21.

FAILS TO LOWER THE RECORD

Dan Patch Equals That of the Veteran Star Pointer.

Lexington, Ky., Oct. 14.—Star Pointer continues to hold the world's championship for an unpaced mile in harness. In a trial to lower it Friday Dan Patch equalled it for the second time. In view of a stiff breeze which the pacer had to face through the third quarter, the popular belief was that he could not beat 1:59 1/4 and that he equalled it was regarded as a great performance. Hersey was behind Dan Patch and Scott Hudson drove the runner which accompanied him alongside Star Pointer was driven on the track and after an ovation from the crowd, viewed Dan Patch's trial from the head of the stretch. The quarter was made in 30 flat and the half in 59. For the next quarter the horse had to content with the wind. It did not affect his speed appreciably, as the three-quarters was reached in 1:28 1/4. But it told on his strength. At the head of the stretch a second runner was picked up and Dan Patch came home between them and showed that he was tired, as 1:59 1/4 was the best he could do.

ENTERED IN SUPREME COURT.

Motion to Advance Hearing in the Case Against Paper Company.

Washington, Oct. 11.—Solicitor General Hoyt Tuesday entered a motion in the supreme court of the United States to advance the hearing in the case against the General Paper company and others and the cases against E. F. Hale and W. E. McAllister, connected with the American Tobacco company. Both sets of cases involve the right to compel witnesses to testify under the Sherman anti-trust law, the paper company cases having arisen before the United States circuit court for the Eastern district of Wisconsin, sitting at Milwaukee, and the others before the United States circuit court for the Eastern district of New York. It was stated that the defendants in the paper company cases make no objection to early hearing. The court took the motion under consideration.

Bystander Killed.

Pomeroy, O., Oct. 13.—In a pitched battle at Middleport Thursday night between John, Oscar and Arthur Myers, brothers, in a dispute over the division of corn, William Haag, a bystander, was killed and John Myers was shot and seriously injured.

Matches of Size.

If all of the matches made in a single year could be put together they would make seventy-eight matches each long enough to reach from the earth to the moon. Each match would burn for several years and would give out as much heat energy as would be consumed by three freight locomotives in a day. Forty of these matches would be of the safety variety, twenty-three would have sulphur tips, and the rest would be of the strike anywhere sort. Only one would be a wax match, and that would fall a trifle short of the proper length, say 700 miles.

ASBESTOS CURTAIN BEING INSTALLED
Safety of Patrons of the Brainerd Opera House Further Insured by Improvements

A BEAUTIFUL PIECE OF WORK
By Twin City Senic Studio And One of Men is Installing Same

Mr. Nichols, representing the Twin City Senic studio, is in the city today installing a new asbestos curtain in the Brainerd opera house. In contracting for this curtain the Park Opera House association is complying with the requirements of the law and the further safety of the building from a standpoint of the loss by fire is assured.

The old scenic curtain has been taken down and the new curtain hung in its place. This improvement makes the Brainerd opera house almost absolutely immune from danger of loss of life by fire. In case of a fire on the stage, where it is always known to start, the curtain can be lowered and the fire can be confined to that part of the building with ease, at least until the house is emptied.

There are five exits and provision was made some time ago to light these exits with electric lights which are placed on a separate switch from the other lights in the house, so that if the lights should happen to burn out the way to the exits would be made clear by these extra lights which have been colored red.

Here you will find sure and permanent forgetfulness of all your troubles, and your body will not be burdened by a load of debt disease. At H. P. Dunn & Co. drug store. Price 50c. Guaranteed.

SMALL BLAZE AT SHOPS
Fire Caught in the Platform of the Store-room and Some Difficulty was Experienced in Putting it Out

Last night about ten minutes of 6 o'clock there was a small blaze in the platform of the storeroom at the Northern Pacific shops, which gave considerable alarm for a time. The fire worked beneath the platform and it was therefore difficult to get at, but the shop department finally got at it and the fire was put out with very little damage having been done.

AFTER FIGHTING FOR MONTHS
John Donahue Files a Petition for Leave to Answer

Chicago, Oct. 14.—After fighting months against answering certain questions asked during the injunction proceedings in the Teamsters' strike, John Donahue, under sentence of commitment to jail for contempt of court, filed a petition (unexpectedly before Judge Kohlsaat Friday asking leave to answer.

In taking this action Donahue did not consult his attorneys. The petition was a bombshell to them, as well as to union labor officials.

The matter, however, is said to be out of Judge Kohlsaat's jurisdiction, an appeal having been taken to the United States circuit court of appeals. Judge Kohlsaat took the petition under advisement, but he is expected to rule that the higher court must grant the permission asked by Donahue to reveal the secrets of the union, guarded at so much expense and bitterness. Donahue was a member of the Railway Express Drivers' union.

HINT TO GREAT BRITAIN.
Cologne Gazette Prints an Inspired Dispatch

Cologne, Oct. 14.—The Cologne Gazette prints another inspired dispatch from Berlin apropos of the Paris Figaro's additions to the Matin's story which can only be interpreted as a plain hint to the British government to explain its role in the matter. The whole story is that Great Britain and France were to form an offensive and defensive alliance against Germany. Emperor William is said to have blocked the scheme.

ON THE FARM OF C. W. KOERING
Members of State Sanitary Board Are Kept Busy This Time of the Year

Dr. D. M. McDonald, now with the state live stock sanitary board, is in the city today again, having returned last night from McGregor where he was called on important business.

He left this afternoon for St. Mathias where he was called to the farm of C. W. Koering where it is thought that his horses have the glanders. Dr. McDonald will make a thorough investigation before taking action.

MUSIC AND DRAMA.
TO FRIENDS AND PATRONS

In presenting this company to your notice, I believe that I am offering one of the strongest repertoire attractions that has ever played your city. Experience has taught me that to be successful in stands, the performance must combine a great variety of features and appeal to all classes. Some theatrical patrons like strong acting, while others come only for comedy element; others again appreciate singing and dancing and dancing and good music, and there are those whose fancy can only be caught by beautiful stage settings and handsome costumes. In order to please all of these and command their universal patronage, I have sought to run the entire gauntlet of stage productions in my new venture. My engagement will open in your city on Monday next, Oct. 16, at the Brainerd opera house. Prices 10, 20 and 30c. Ladies free first night.

Yours Truly, BEN WARNER.

MR. DANIEL SULLY

A play, strong in dramatic quality and rich in comedy is what is promised the patrons of the Brainerd opera house soon when Mr. Daniel Sully and his company will appear in the three-act comedy drama, "Our Pastor." In this play Mr. Sully is seen as Father Daly of Idaho, and his troubles in regulating the affairs of a rough western commu-

nity from the basis of an original and interesting story. The play is handsomely staged and is presented by a company of unusual merit.

The sale of seats for Mr. Sully's engagement will open soon.

ADELAIDE THURSTON.

The name of Adelaide Thurston is as well known to the theatre-goers as the names of Richard Mansfield, Sarah Bernhardt, Viola Allen and others and it is doubtful if theatre-goers will be more anxious to see the above mentioned stars than the dainty little actress mentioned. She will make her annual appearance at the Brainerd opera house in her new play, "The Triumph of Betty" in a short time.

"THE HOLY CITY."

Believing the public to be more interested in artistic production than in the cost of transporting paraphernalia, Gordon and Bennett do not advertise "trains of cars," or "tons of scenery," yet for every performance of "The Holy City," theatre stages are cleared of all that is generally used and the company management provides the scenes which are so beautiful and so universally extolled. There is no band, no day parade, but audiences find that night brings evidences of more sumptuous preparation than is often seen.

Wise Talks By the Office Boy.

Did you ever go to a sale and buy a pair of \$1.50 shoes for \$2.49, wear them a little while, then take them to a cobbler to be half-soled and have him tell you they weren't worth repairing? What's the use of buying a cheap shoe because it's marked up and down a few times? You hardly like it when you try it on, you're never sure it's going to be comfortable when you wear it, and you have no redress in case it turns out bad or wears only half as long as you had a right to expect. This couldn't very well happen to a Fellowcraft or Ralston shoe; if it did, you'd get a new pair or your money back in a hurry. And the cost is only \$3.50 and \$4.00. Then if you want the height of shoe quality in style and workmanship in Brainerd or any part of the world today, you buy the Dr. Reed cushion soles. And if you don't know where these two splendid shoes are sold exclusively in this town, take a tip from a kid,—it's at Linneman's.

THE TAGGART DIVORCE CASE.

Army Officer Wins Suit and Gets Custody of Children.

Wooster, O., Oct. 14.—Judge Eason, who heard the divorce case of Captain Elmore F. Taggart against his wife, rendered his decision Friday. The court grants Captain Taggart the divorce and the custody of the two children, Oliver, aged eleven, and Charles, aged seven. Although Mrs. Taggart is denied possession of the children, she will be permitted to see them. Captain Taggart was in court during the reading of the decision. Mrs. Taggart is ill and was not present. The courtroom was crowded with an eagerly expectant throng. Judge Eason before giving his decision reviewed the petitions, cross petitions, answers and affidavits. The charge of drunkenness against Captain Taggart, the court said, was not sustained.

The trial lasted seven weeks. The case went to the court a month ago. The suit was first started in July 1904, by Captain Taggart who filed petition for divorce, charging his wife with conduct unbecoming a wife and alleging the excessive use of intoxicants. Mrs. Taggart filed a counter petition for divorce against Captain Taggart on the grounds of cruelty and neglect.

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

STIMULATES RETAIL TRADE.

Cold Weather Is Also Beneficial to Jobbers.

New York, Oct. 14.—Bradstreet's weekly review of trade says cold weather more than usual at this time of year, has given a stimulus to retail trade throughout a wide area and helped the already active jobbing trade through the medium of reorders. Much delayed business has also materialized through the lifting or abolition of quarantine through the Central South. Further strength has likewise developed in iron and steel, which, though perhaps quieter so far as new business is concerned, are more firmly held or show further advances. Premiums for quick delivery are now almost universal and contracts far into 1906 are announced for both crude and finished products. Export trade in all kinds of grain and flour shows expansion. Prices of nearly all commodities are strong or tend upward, reflecting insistent demand. Demand for money is still growing and stock market movements are being subordinated to requirements to move crops and finance commercial operations along all lines. The only flaw in the situation at present—one by the way, flowing from intense activity in all lines of industry—is the growing inability of the railroads to handle the freight traffic offering.

SCORE THEIR THIRD VICTORY

New York Nationals Defeat Philadelphia Americans.

New York, Oct. 14.—Three to one is now the advantage which the New York Nationals hold over the Philadelphia Americans in the struggle for the world's championship. The New Yorks scored their third victory Friday and if the local men succeed in getting the better of the visitors in Saturday's contest the world's championship flag will fly from the big mast in the Polo grounds.

Philadelphia, heavily handicapped by the loss of the services of the erratic pitcher, Waddell, has succumbed to the mastery work of Mathewson twice and Friday McGinnity pitched gilt-edge ball, which partially atoned for his defeat at the hands of Bender last Tuesday on the same diamond.

Each team made five hits Friday and the only error of the game, made by Shortstop Cross of Philadelphia, allowed Mertes to reach first base in safety. Mertes scored the run that won the game. Attendance, 13,598.

Close Call for Vanderbilt.

New York, Oct. 14.—Alfred G. Vanderbilt and Paul Sartori, the Italian automobile driver, had a narrow escape from serious injury while racing in Mr. Vanderbilt's high power automobile over the Vanderbilt cup course on Long Island Friday. Their car overturned while going at a speed of ninety miles an hour and both were thrown out. Sartori was hurt, but Mr. Vanderbilt was not injured.

TELEGRAPHIC BREVITIES.

Another slight shock of earthquake is reported from the province of Calabria, Italy.

Princess Pierre Napoleon Bonaparte died suddenly at Paris Friday. She was born in 1859.

A dispatch to Tokio from Kuamot reports the suicide of a Russian lieutenant in the hospital there.

The postal receipts for the fifty largest cities in the United States during September aggregated \$6,513,500 against \$5,907,203 for the corresponding month in 1904.

Fire Friday night caused an estimated loss of \$25,000 to the plant and stock of the Northern Shade Cloth company at St. Anthony Park, between St. Paul and Minneapolis.

A man known as William Brush, or Curtis, who is wanted for the robbery and attack upon William Ellis, an Australian, in Berkeley, Cal., has been identified as M. F. Andrews, wanted for the alleged murder of Bessie Bouton on Mt. Cutler, Colo., on Oct. 5 1904.

THE MOTHER-IN-LAW

HER STRANGE POSITION AMONG MANY OF THE WORLD'S PEOPLES.

Races Where She Is Neither Permitted to Speak to Nor Look Upon the Husband of Her Daughter—Theories About This Queer Custom.

Among the Arawaks of South America it is unlawful for a young man to see the face of his mother-in-law. If they live in the same house a partition must be set up between them. If they go in the same boat she has to step in first, so as to keep her back turned on him. Rochefort says: "Among the Caribs all the women talk with whom they will, but the husband dare not converse with his wife's relatives except on extraordinary occasions."

In many parts of Australia a woman will not look at her daughter's husband at all hazards. She hides whenever he comes near her, going out of her way to avoid him, and if it is impossible she hides her face with her cloak. She would not mention his name for anything in the world. The Kafir woman hides behind a bush and holds a shield to her face. She would far rather speak to a stranger than to her son-in-law.

Franklin, who gave much time to the studies of the North American Indian, assures us it is considered extremely improper for a woman to speak to her son-in-law, and when she has any important communication to make it is considered proper for her to turn her back on him and speak by means of a third person. The same law holds good among the Sioux and Dakotas, and if violated the offender is punished by having his garments torn from his back and thrown away. With the Omaha neither the father nor mother has anything to do with the son-in-law nor he with them. They will not look at one another or speak his name.

In his travels to Timbuctoo Caillies narrates that from the moment of betrothal the lover is careful not to see the father and mother of the bride. They avoid each other all the time. He says, "I tried in vain to discover the origin of the whimsical custom, but the only answer I could obtain was, 'It is our way.'"

This custom extends beyond the relations. If the lover is of a different camp he avoids all the inhabitants of the women's camp, except a few intimate friends whom he is permitted to visit. A little tent is generally set up for the son-in-law, and when he is obliged to cross the camp he covers his face. This custom exists among Indian tribes and extends far beyond.

In the tribes of New South Wales the young man, when courting a girl, avoids her mother as much as he can and grows more distant after he is married. With some Victorian tribes the estrangement is even greater—the mother and aunt as well may not look at the young man nor speak to him from betrothal to death. When they speak before each other they have to use a turn language. Under no condition would the young man dare to speak to his wife's mother.

Macleod, who studied this custom among the Zulus of Africa, says a daughter-in-law must cut herself off from her husband's relatives. She is not allowed even to pronounce their names mentally. This statement shows that in some countries the girl must ignore her husband's relatives as much as he does her mother, but this is less frequent.

In Asia among the Mongols and the Calmucks a woman dare not speak to her father-in-law nor sit down in his presence. Uallas in an interesting work on the Ostiaks of Siberia declares that a young married woman avoids her father-in-law whenever she can, especially during the early years of her married life. In the meanwhile the husband is not expected to see anything of his mother-in-law. If he meets her by chance he hides.

In China, after the wedding day, a man never sees the face of his daughter-in-law. A similar custom exists in Borneo and the Fiji Islands. Some people consider it absolutely criminal for a young man even to give a stray glance to his mother-in-law, however good looking she is. They say that they must not look on her lest they go mad. It is the fashion with some tribes in central Africa to sit with bent knees in their presence and not to put their feet out. A Kongo proverb states: "My mother-in-law is angry with me, but what do I care? We do not eat from the same dish." Some men will speak to their mothers by marriage, but will not call them by name. This is true of the people of the Torres Strait.

Many more instances might be mentioned, but these are enough to show that the position of the mother-in-law among many peoples is strange. The cause for it is not positively known. Sir John Lubbock feels that its origin lies in capture where a man really seized his wife. This aroused the indignation of the girl's parents, who resented his doings by treating him with great scorn. Gradually this capture was only made believe, but the mother-in-law still shows her disapproval by having nothing to do with her daughter's husband. Professor E. B. Taylor says it is an act of cutting. When a young man comes into a family he is ignored; he is at least not considered one of them. Both explanations may be true in part, but they do not tell the whole story. It is more likely that a feeling of rivalry and jealousy is at the bottom of it all.—Chicago Tribune.

The mirage can be seen nearly every day in the plains of lower Egypt and also to a limited extent in the plains of Hungary and southern France.

FOUR MEN DROWNED.

Canoe Swamps With Six Men in Winipeg River.

Kenora, Ont., Oct. 14.—Another terrible drowning accident occurred at a place seventeen miles down the Winipeg river Friday morning. Four men lost their lives. It appears that English Miles of the Grand Trunk Pacific survey and his party were moving down the river when it was noticed that six men in a canoe had swamped. Two of them swam ashore, while the other four, named Crooks, Porter, Brown and Lorensen, went to the bottom.

A Most Wonderful Cure.

Joseph D. Underhill, of Doland, S. Dakota, says: "I have received great benefit from your White Wine of Tar Syrup. I had a deep seated cough and the doctors gave up all hopes of my recovery and pronounced it consumption. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I used 1½ bottles and am entirely cured. Such medicine I can recommend to those who were afflicted as I was."
